(Ord. 1269, 3/7/07, §1)

§903. Findings

The Borough hereby finds and determines that the Wyomissing Square Abatement Area constitutes a "blighted area" within the meaning of the State Housing and Redevelopment Assistance Law and the Urban Redevelopment Law, in that situate in such Area are buildings of defective design and arrangement, economically undesirable land uses and obsolete buildings, based upon the following specific findings:

(a) the presence of two (2) bedrock wells on a parcel adjacent to the Wyomissing Square Abatement Area, which parcel is in the same chain of title as the Wyomissing Square Abatement Area, and which from 1954-1968 held wastewater from electroplating operations, which contained cyanide, chromium and nickel;

(b) from 1971 to 1974 the aforementioned wells were utilized to hold waste generated by an electroplating operation;

(c) as a result of certain contamination which was found to have occurred in the Area a consent order and agreement providing for clean-up of the site was entered into with the Pennsylvania Department of Environmental Protection;

(d) the Area contains an old two (2) story industrial building which is unable to be adaptively re-used in an economically feasible fashion due to roof leakage, floor buckling, and overall structural deterioration. The weak market for industrial use properties will not support the cost of repairing and upgrading the building for a new industrial use; and

(e) the former industrial use of the existing structures located in the Area is a socially undesirable land use which no longer fits into the fabric of the community in which it is located.
