Borough of Wyomissing Playground, Basketball, and Tennis Court Closure

Wyomissing PA- The Borough of Wyomissing Parks and Recreation Department realizes that many residents and families are seeking ways to keep busy amid school and business closures, and are going outside to the playgrounds and parks. We know that some people are practicing social distancing and enjoying the trails and parks, but we have noticed that many children and teens are using our playground equipment, basketball courts and tennis courts, and are not practicing social distancing. In normal times, this is what we work for, to see people enjoying our beautiful facilities, however in this unprecedented time, we have to be proactive and take steps to limit social gatherings and the potential for spreading COVID-19. Because we cannot sanitize all playground equipment surfaces after each use, we are taking precautionary measures at this time by closing water fountains, basketball courts, tennis courts, and playground equipment. Park trails and open spaces will remain open at this time, and we encourage people to follow the CDC guidelines regarding social distancing. This closure is merely for the safety of our Borough residents. We apologize for this inconvenience and our hope is that we can all do our part, to get through this time together.

If you have further questions, please contact Borough Hall at 610-376-7481 or by email at: info@wyomissingboro.org
